

Technical Data Sheet

Reaction time
works during operation

Application field
for use in all gasoline engines

Consumption
50 ml for 10 L

Application interval
with every tank filling or on demand

GDI Injector Cleaner

Application

Add before every tank filling to the fuel tank before filling up. Recommended for all petrol engines, especially in case of cold start problems or bad exhaust values because of deposits. Treats 50 up to 70 L of petrol. For larger tank volumes add 0,5 % of the filling content. Product works during operation.

Description

AUTOSCHLÜSSEL GDI Injector Cleaner was especially developed to provide excellent injector cleaning in direct injection engines. Product is also suitable for conventional manifold injections and ensures effective cleaning of valves, injector nozzles and the piston crown without dismantling. Removes operationally caused contamination in the entire fuel injection system. Only a clean fuel system guarantees clean and powerful combustion and efficient engine performance!

Advantages

Easy application without any extra effort. Improves the engine performance and provides a powerful and stable combustion process. Optimizes the fuel consumption and the exhaust gas emission values. Considerably prolongs the life span of the engine and ensures smooth engine running.

Properties

Physical state	liquid
Color	light amber to yellow
Density (15 °C)	0,854 g/cm ³ [DIN 12185]
Flash point	82 °C [ISO 3679]

Compatibility

Mixable with all kinds of gasoline. Recommended for all petrol engines with gasoline direct injection (GDI).

Safety instructions

Follow the application instructions in the technical data sheet (TDS). Read safety instructions in the Material Safety Data Sheet (MSDS) before using this product. Keep out of reach of children. If medical advice is needed, have product container or label at hand and call a poison centre/doctor.

Disposal

Dispose of this product and container according to national/regional regulations.
